

Forever Slave, Tristeza

In this time remember me
I miss your hands on my skin
Dont you remember me?
Promises and lost dreams

Two spirits come to me
My death, I could see it

Dont control my Tristeza
give me my life, again
This sorrow is infinite
I dont want this world

My life is illusion for me
This time brings me fear
I saw blood in the ground
These wounds dont die

Two spirits come to me
my life was dark
That night of winter
a new world was born

Dont control my Tristeza
give me my life, again
This sorrow is infinite
I dont want this world
