## Forever Slave, Tristeza

In this time remember me I miss your hands on my skin Dont you remember me? Promises and lost dreams

Two spirits come to me My death, I could see it

Dont control my Tristeza give me my life, again This sorrow is infinite I dont want this world

My life is illusion for me This time brings me fear I saw blood in the ground These wounds dont die

Two spirits come to me my life was dark That night of winter a new world was born

Dont control my Tristeza give me my life, again This sorrow is infinite I dont want this world
