

# Frank Black, Pray A Little Faster

Breath deep and fill your lungs  
in your native or in your second tounge  
pig-latin or pigeon  
just get religion

Pray a little Faster  
C'mon Pray a little faster  
Pray a little faster  
we got to far to run

Forget about the girls and forget about the boys  
turn off the TV and put away your toys  
You cant do what you want to do  
So get out your voodoo  
Come on  
Pray a little faster  
Pray a little faster  
Pray a little faster  
We got too far to run

Pray to the trees, pray to the sun  
and if you don't believe, pray to the alien  
look up to heaven, yeah  
and turn it up to 11  
C'mon  
Pray a little faster  
Pray a little faster  
Pray a little faster  
We got too far to run
