

# Franz Ferdinand, Always Ascending

Put your lader down /5x

don't be concerned  
it's just the way that the gravit works around here  
all slowly rising  
falling patiently  
feel no  
feel no fear  
cirrus caress you  
cumulus kiss you  
raindrops of crystal  
whisper: We'll miss you  
but go  
let go

always and always and always  
ascending  
the opening like leaves an uncertain ending  
always and always and always  
ascending  
the chords seem to pause  
but ahhh

never going to resolve /8x

talk to me  
talk to me  
come on  
talk to me /2x

wake me up  
come on  
wake me up

waking up dry  
waking up dusty  
feeling remorse  
feeling thirsty  
bring me a cup  
bring me water  
we can ascend  
from this arrangement  
we can see fate  
as entertainment  
bring me a cup  
bring me water /2x

always and always and always  
ascending  
the Shepard misleads so you think you're transcending  
always and always and always  
ascending  
pause the progression  
but ahhh

never going to resolve /8x

talk to me  
talk to me  
come on  
talk to me /2x

wake me up  
come on

wake me up
