

# Fred Rister, I Want A Miracle (feat. Sam Martin &

I want a miracle  
show me a sign  
cuz I don't feel ready now to say goodbye  
I want a miracle  
to ease my mind  
say that I'm better now  
don't say goodbye

put your arms around me  
use them while you got me  
baby look how far that we've come  
although yesterday feels so young

the days we laughed together  
the nights we cried together  
the dreams we dreamed have just begun  
the crazy things we tried together  
the fires we fought together  
tell me this is not the end

I want a miracle  
show me a sign  
cuz I don't feel ready now to say goodbye  
I want a miracle  
to ease my mind  
say that I'm better now  
don't say goodbye

let's dance and try to get through  
knowing that I might leave soon  
just remember what I told you  
my heart will always love you

the days we laughed together  
the nights we cried together  
the dreams we dreamed have just begun  
the crazy things we tried together  
the fires we fought together  
tell me this is not the end

I want a miracle  
show me a sign  
cuz I don't feel ready now to say goodbye  
I want a miracle  
to ease my mind  
say that I'm better now  
don't say goodbye
