

# Freedom Call, Carry On

Carry on, carry on  
The chanting has begun  
A hymn of fame and glory - forever  
And ride on, ride on  
In union we are strong  
A symphony for freedom and glory

We are strangers in a strange land  
We are born as renegades  
And show the world what they should see  
When we are standing at the crossroads  
Revolution is our way  
We're breaking down the walls of hate

(chorus)

We are guardians of the future  
Defenders of our faith  
And we are bound for victory  
When our hearts call for rebellion  
We're raising our hands up to the sky  
And tell the world to turn away from darkness

(chorus)
