

Friends, When The Music Is Gone

Authors & Composers : Norell/Oson/Bard

It's a friday night

We're on the road again

Another town another scene

Another audience

But you're not here with me

I keep on calling you

When I'm standing in the spotlight

What am I to do

I'm losing my mind without you

CHORUS

I tried to give a good face

And keep the action in place

On the stage I belong

But where do I go with my heart

When the music is gone

It was the night when you called

And said you're leaving it all

But the show must go on

Now where do I go with my heart

When the music is gone

Although you're far away

I wishe'd you understand

It's on the stage I can express

This is the way I am

Though you're not here with me

This song is meant for you

When I'm standing in the spotlight

What am I to do

I'm losing my mind without you

CHORUS

After the show at my hotel

I close the door and think of you

Lost in my loneliness ohhh

CHORUS
