

# Frozen Crown, Forever

Down deep the oceans  
Lie the ashes of ages  
As in the solace  
Our memories will live  
Down deep the oceans  
Lie the ashes of ages  
As in the solace  
We will forever be as one

As we have never been  
So close to reach the sun  
Our land is moving out of sight  
We're stronger tonight  
Gathering might  
Above the fading lights  
Again we'll rise

This moment, this moment  
Will live through eternity  
This moment, this moment  
The brightest we've ever seen

Find in light the essence of the night  
Say "forever"  
Forever  
Till the stars shine on our hearts  
Tides won't last  
Our time is dying fast  
But this moment, our moment  
It will shine bright on our hearts

The end is getting closer as we fight  
I will forever be  
As stronger as I can be  
If you stay with me  
Tonight we'll learn to...
