

Fujii Kaze, Workin' Hard

Nailed it
Left them in awe
Oh, this world is too damn easy

Trusted it
Completely relieved
Ouch, what a deep joy

What I'm fighting against
What I'll knock out
Is weak ass self in me

I'll do it thoroughly
With dignity
Then perish beautifully~

Y'all are doing really great
Working your asses off
I will do my best, too
Do whatever I could

Don't need to have anything
To hell with consequences

Better sit back
Take a deep breath
And you'll know...

You've been workin' hard
Workin' hard
Maybe you don't understand
But I know that you're
Workin' hard
Workin' hard
Wish I could give you a hand
Baby you've been
Working hard
Working hard
Trust the process and be brave
You've been workin' hard
God, you've been workin' hard

Sit back, time to relax
Dance freely to the beat of your heart
Bow down, show them respect
There's no enemy or ally here
Sit back, time to relax
Dance freely to the beat of your heart
Bow down, show them respect
There's no such thing as 'friend or foe'

Y'all are doing really great
Working your asses off
I will do my best, too
Do whatever I could

Don't need to have anything
To hell with consequences

Better sit back
Take a deep breath
And you'll know...

You've been workin' hard

Workin' hard
Maybe you don't understand
But I know that you're
Workin' hard
Workin' hard
Wish I could give you a hand
Baby you've been
Working hard
Working hard
Trust the process and be brave
You've been workin' hard
God, you've been workin' hard

All we gonna do is to make you happy
All we gonna do is to make you lucky
All we gonna do is
All we gonna do is to make you make you feel alive

What we gonna do is to make you feel good
What we gonna do is to make you feel ah
It's all about others
It's all about brothers
Together we can touch the sky

Cuz you've been workin' hard
Workin' hard
Maybe you don't understand
But I know that you're
Workin' hard
Workin' hard
Wish I could give you a hand
Baby you've been
Workin' hard
Workin' hard
Trust the process and be brave
You've been workin' hard
God, you've been workin' hard
