

Future, Never Stop

I will never stop, never stop
Keep goin', keep goin'

I make Yeezy Boost moves in my Reeboks
It ain't gon' never stop
tryna run a billion up until my ankle pop
you'll get rich and have problems that you never thought
it bring tears knowin' we came up out the sandbox
bringing tears to my eyes

made it out the trenches
it got harder for my niggas
I just wanna see my dawgs ball, 7 figures
I done got rich and it cursed me
ever since I got successful, they envy
tryna shake the devil, on promethazine
tryna show you love but you don't feel me
gavce up on me so you turned your back

I can see the demons
cause a nigga been blessed
I can tell you worried
but a nigga been in debt
I can't get caught up inside the matter
I shpuld've did better, but it's chatter
I ran up my money off the gravel
love is just a word
it don't matter to me
I got rich, nothing matters to me
