

# Future, No Matter What

Aye we didn't even know it was gonna be like this  
But we told each other we gonna be there for each other  
No matter however it goes  
You know what I'm saying  
... like that

We made a bond from the very beginning  
I found my homie and my best friend  
I'mma be there for ya 'til the very end  
No matter what, no matter what, no matter what, yeah  
We broke the rules, we took it further in  
We made a promise to each other we gon' never end  
She gon' be there for the kid, no matter what  
No matter what, no matter what, yeah

We met through a mutual friend  
We started clubbing, drinking, talking, laughing and grinning  
You had your eyes on me the whole time  
I could see it through my lens  
Your face your shape and the lil things about ya...had the kid all in  
Anytime we spend time, we spend more than we spend Benjamins  
But the fuck this high siddity girl wanna do with an astronaut kid  
I'm asking myself questions, I had to understand  
You gotta live and learn and make mistakes to be the man  
We didn't mean for it to get this serious  
I got another nigga bitch with me  
And I'm falling for her, yeah I'm falling for her  
We ain't got no strings attached  
I want her more and more

We made a bond from the very beginning  
I found my homie and my best friend  
I'mma be there for ya 'til the very end  
No matter what, no matter what, no matter what, yeah  
We broke the rules, we took it further in  
We made a promise to each other we gon' never end  
She gon' be there for the kid, no matter what  
No matter what, no matter what, yeah

We can talk about whatever, we can fuck wherever  
It's like we're walking on rose petals, when we together  
I see you jocking me, and I'm jocking you harder  
You got everything a woman want, I still want to spoil ya  
And your loyalty to him ain't my concern 'cause you're loyal  
It's like we been cast with a spell or both ate some poison  
Tell him I ain't mean to intervene with his main thing  
You my main fling, I took it main stream  
Everyday it's nice to share our main dreams, and ain't a damn thing  
Will never come between, our thing  
And we ain't mean for it to be this serious  
I made a promise to you and I'mma take it serious  
'Cause I know my words mean the most to you  
And you mean the most to me  
We got a special connection, can't nobody come between

We made a bond from the very beginning  
I found my homie and my best friend  
I'mma be there for ya 'til the very end  
No matter what, no matter what, no matter what, yeah  
We broke the rules, we took it further in  
We made a promise to each other we gon' never end  
She gon' be there for the kid, no matter what  
No matter what, no matter what, yeah
