

# Future, Nowhere

This beat here is the realest part  
(Baby J)  
Sometimes you get vulnerable for  
(Tequila shot)  
Romance and love  
Is it true?  
You can't be doing no lying

Can't let you go nowhere  
Can't let you go nowhere  
Can't let you go nowhere  
Can't let you go nowhere

Homie said "go get the 'Rari"  
I'ma get the yerky tomorrow  
I get a yacht master, you get a yacht master  
I treat you like you a model  
We go to Turks, we can go to Aspen  
Or we can go back to Cabo  
If you been telling me personally girl look like you hit the lotto  
One thing about it, don't lose your composure  
Finish pilates and hop out the Rover  
63 G-Wagon, I'm gettin' the odor  
You get the full attention from my comrades and all my soldiers  
Cartier docks  
I got a key to your box  
You got a chinchilla box  
Meet me at the dealership box  
All that drip drip drop  
Make a nigga bands go pop  
You get invited on a yacht  
We making love on the spot  
You throw Phillipe to the sky  
Keep it elite for your guy  
They can't speak to the pie  
Make a nigga reach for the fire  
Audemars, mi casa  
Hear the hoes goin' bye bye  
Can't fuck up my time

Can't fuck up my time  
You've been on my mind  
Your job don't make up a dime to mines  
I made you quit when the time was right  
Telling me no is hurting me  
Took me years bring out the best of me  
You can't be doing no lying

Can't let you go nowhere  
Can't let you go nowhere  
Can't let you go nowhere  
Can't let you go nowhere

Glass walls in the room, let 'em watch me make love to you  
Passion compassion while I keep in touch with you  
Pretty as ever, I thank your momma for blessing me  
Joking with your father cause you're part of my embassy  
Put your hair in a pony, make my ex girl misery  
That Ferrari Spider girl fuck all your enemy  
Giving your pussy away girl is gon' fuck up my legacy  
Maybe it's my intuition, could be jealousy

Can't let you go nowhere  
Can't let you go nowhere

Can't let you go nowhere  
I can't let you go...  
I 'can't let you go nowhere  
Can't let you go nowhere  
Can't let you go...

Glass walls in the room, let 'em watch me make love to you  
Passion compassion while I keep in touch with you  
Pretty as ever, I thank your momma for blessing me  
Joking with your father cause you're part of my embassy  
Put your hair in a pony, make my ex girl misery  
That Ferrari Spider girl fuck all your enemy  
Giving your pussy away girl is gon' fuck up my legacy  
Maybe it's my intuition, could be jealousy

Can't let you go nowhere  
I can't let you go...  
I can't let you go nowhere  
I can't let you go nowhere  
I can't let you go nowhere  
I can't let you go...
