

# Future, Side Effects

You pay my team  
Hold down my crew  
You wash my clothes  
You buy my grocery  
You stay up late  
You say whatever  
That's whatever it take  
You fucking slick stuff  
It ain't hard to tell  
Ask so know how it feel  
But read my mail  
Baby, I suppose I take you serious  
Keep talkin' dirty, I love to hear it

Cause I never took nothin' from you  
Just tell me what it cost  
Bonds to the fire  
And when we run to the finish  
No screens, no cak  
Cause I gotta be honest, if you want it all,  
I give it to you  
Side effects, no side effects  
No side effects, I give it all to you  
Side effects, I give it all to you

My nigga stay floating across yo water  
I give you pleasure, you play your part  
I smoke too much, say you don't mind  
At least you make, make up for your time  
You fucking superstar, you fucking up  
Ain't bout that talking, hey girl, are you sure?  
Giving me some, never taking it back  
Ain't no side effects, remember that

Cause I never took nothin' from you  
Just tell me what it cost  
Bonds to the fire  
And when we run to the finish  
No screens, no cak  
Cause I gotta be honest, if you want it all,  
I give it to you  
Side effects, no side effects  
No side effects, I give it all to you  
Side effects, I give it all to you
