

# Future, Slow Down

Three hundred thou' when I signed it  
Whippin' it off when I signed it  
Droppin' the top when I sign it  
Showin' it off when I sign it  
I been at the dealership all day, you know where to find me  
My bitches gon' have they way, I give 'em all an assignment  
We spent 60k to sit front row at the fight  
Went on vacation, came back and bought some ice  
Order the private, put the choppers on a flight  
Fuck them imposters, we some shottas in real life  
I'm whippin' a giant, nigga my money's a giant  
I fuck her tomorrow, nigga ain't never replyin'  
It's one of a kind, this watch, it's hard to find it  
I send out a kite, they all gon' end up dyin'  
I send a out a hit to the charts, and keep on climbin'  
Throw the Benz in park, I put a few squares on the Cayenne  
She speaking the lingo, I met her at Dior on Rodeo  
Yeah I'm one of a kind, you need to check out my portfolio  
Bitch don't speak no English, bitch don't speak no English  
Heard that chopper ringing, better not do no singing  
Fuck these hoes in Phoenix, ain't got no more semen  
Four door Lamborghini, you ain't never seen it  
Shawty so predictable, can't keep it one thou'  
Drinking codeine, it's getting hard to slow down  
[?]  
Put the cash in the wall and the ground, I never can touch it  
We hit a few licks but "shh", we never discuss it  
Free my lil' brother, he locked in the cage, he bloody  
We can't be gang bangin' on wax  
Niggas be false claiming, get whacked  
You giving head shots, you better keep it one thou'  
Riding for the gang, it's getting hard to slow down  
And I told my brother Metro, we 'bout to change the whole sound  
And before I go insane, I'm 'bout to change my whole style  
I only had drove it once, after I signed it  
I gave you help like a sponsor, I gotta remind 'em  
I'm taking all my brothers and treating 'em with diamonds  
I wouldn't be here today without my environment  
Embracing my dogs like brothers, man fuck all these diamonds  
I came from out of the struggle, it's cold and grimy  
I came from Lil' Mexico, and changed the climate  
I hopped on the G5, I'm thinking 'bout buying it  
A half of million gone, soon as I signed it  
The doors that go in the air, I look like a pilot  
And I know anytime of day it get violent
