Gaia Epicus, Invisible Enemy (feat Mike Terrana)

Something is lurking From deep inside You cannot see it And you can't hide

I got the power To take you out Resistance is useless I hear you shout

The invisible enemy We fight We stand trial The invisible enemy How will this end?

Attacked in the morning Dead by noon You can't see it coming But you'll be dead soon

It's hard to breed now It's hard to see Who could have done this? Who's the enemy?
