

# Galantis, True Feeling

It's cold out  
Take my coat now  
I wore it just for you

I feel you  
In my bones now  
Feel you through and through

It might get hard when we're growing older  
But I'll be here I'll be your shoulder  
I can see it now /2x

And my God  
Hop it never changes  
I'll spend my life trying to recreate this  
But I don't know how  
No I don't know how

It's me and you  
It's true feeling /2x  
Let your hair down  
What you got to lose

We both need flexing  
But they can't fix what's true
