

# Gary Numan, All Across The Nation

Somewhere in the city  
There's a struggle going on  
Someone's making money  
Someone's doing wrong  
Everybody searching for a little piece of gold  
(Power play?)(fix a face?) never grow old  
It's a shame  
Who's gonna take control?  
It's a game they play  
Who's gonna save your soul?  
And they're never gonna stop  
Till they reach the top  
All across the nation  
Fever takes control  
Money is temptation  
Money saves your soul  
One thing I can tell you

Of this there is no doubt  
The rich man needs his comfort  
And the poor man does without  
Everybody loves somebody  
All around the world  
But everybody knows  
It's the rich man gets the girl  
-chorus-  
Look at all the little people  
(Cowering?) from the rain  
Standing at the bus stop  
Dreaming 'bout Spain  
Here comes the rich man  
Driving his car  
When he was poor he was sure  
He was gonna go far
