

Gary Numan, I'm On Automatic

This is metal rhythm
A new song on the Radio
Some new face
A picture on your wall
Talk to me
You say it's nothing personal
But somethings wrong
It's eating me alive
I can't fine the reason
So I can't find the cure

They say nothings's wrong forever
But that somethings wrong with me
Oh I've been down so far
I've never hurt like this

I'm On Automatic
I've heard it all before

Some new flavour
With nothing in the hear
This isn't music
This is survival
But I'm still here
Now isn't that strange
I can't find the reason
So I can't find the cure

They say nothing's wrong forever
But that somethings wrong with me
Oh I've been down so far
I've never hurt like this

They say nothing's wrong forever
But that somethings wrong with me
Oh I've been down so far
Nothing's ever hurt like this
