## Gary Numan, Love Needs No Disguise

She dances He watches She sighs Remember Love needs no disguise

In motion That cannot deny She's saying Love needs no disguise

And if the park gates are closed Remember we toured the skys And if the 'friends' all go home You know love needs no disguise

He dances And we realised Remember Love needs no disguise

In simple embraces They lie In darkness Love needs no disguise

And we can lock all the doors Forget the reasons and fame There's no deceiving inside You know we'll all be the same
