

# Gary Numan, Poison

Help me  
I'm in disgrace  
Witness slow death  
All over my face

Help me  
Pick up my heart  
Tell my friends  
Wherever they are

Listen  
They stole my dream  
New corruption  
Know what I mean?

Listen  
Do you think I don't know?  
I've got a face like metal  
And a radio

Listen up  
Listen up good  
New man's fame  
Is new man's poison

Stand up  
Stand up and fight  
Stand up I won't quit so  
Stand up and play

Stand up  
Stand up and scream  
Stand up I won't run so  
Stand up and lose

Listen up  
Listen up good  
Innocence  
Is new corruption

Memories?  
I don't need  
A dead museum  
And a grudge to feed

Memories  
Rewrite shame  
Rearrange the feelings  
To ease your pain

Big lie  
So this is the word  
A needle in the back  
And my voice unheard

Big lie  
So this is the news  
Radio lost  
And I've nothing to lose

Nu voice  
Said this is insane  
I'm trying to learn the rhythm  
Of the rule change game

Nu voice  
I'm a clock with no hands  
Someone said forgive them  
I don't know if I can

Tell me  
What did I do?  
You'd think I'd sold perversion  
To the son of God (Who?)

Tell me  
What did I say?  
I don't believe that honesty  
Pays

Listen up  
Listen up good  
New man's fame  
Is new man's poison

Listen up  
Listen up good  
Innocence  
Is new corruption
