

Gary Numan, Shame

I've done things God should've questioned
But I don't care.
I've seen things that made my flesh crawl
But I was young.
I've said things that you believed in
But I don't mean.
I heard things, one more confession that
Leaves me cold.

My picture ashames you
My picture
My picture ashames me
My picture

This ain't love, this ain't affection
But you don't care.
This ain't need, I'm not the fashion
So leave my heart.
So good God were you mistaken
Now will I burn?
No more lies no more distraction
So pay you back.

Religion ashames you
Religion
Religion ashames me
Religion

I'm lying shame on me
(secrets forever)
This disease shame on me
(secrets forever)
My memories shame on me
(secrets forever)
Abandon, abandon me
(secrets forever)

This fashion ashames you
This fashion
This passion ashames me
This passion

I'll never ashame you
I'll never ashamed me.

A stranger, shame on me
(secrets forever)
Nostalgia, shame on me
(secrets forever)
Religion, shame on me
(secrets forever)
Abandon, abandon me.

I've done things God should've questioned
But I don't care.
