Gary Numan, Strange Charm

I don't know I don't know The dream was everything

I don't know
I don't know
If it's all falling down.
I lose connection as they let me down

What you gonna think?
What you gonna do?
What you gonna say?
Are you gonna scream 'Oh no'?
What you gonna think?
What you gonna do?
What you gonna say?
I just don't like this thing, at all.
(Strange charm)

Let the boys out Let the boys out And let the fun begin

Let the boys out Let the boys out And let the night come in.

We don't like it
We don't like it
We're from the factory and we've come to play.
Let the boys out.

You push too hard You push too hard Come closer and talk to me

You push too hard You push too hard D'you get the picture now?

You won't like it You won't like it We get impatient as the time runs out. Let the boys out.
