## Gene Clark, Dixie Flyer

She's the daughter of the South Honey in her mouth She got magnolias in her hair

If you take her for granted She'Il take all you love She's a Southern girl She just don't care

She is looking for someone Someone to love her Somebody, somebody, please care

She went all the way to Memphis On a wing and a prayer Come on fly me away, fly me away Fly me away, Dixie Flyer won't be back today

Fly me away, fly me away Dixie Flyer won't be back today
