

# Gene, Save Me, I'm Yours

&lt;!-- Don't turn the light off and leave me  
This bed feels cold and empty  
The ghosts will come and get me  
Won't you please stay here I'm scared

So sorry to be trouble  
But this room is like a gaol  
In the arms of love all fail  
Won't you please stay here I'm scared  
I need you to save me I'm scared

Don't turn the light off and leave me  
Without love I am empty  
You're the only one who'll have me  
So won't you please stay here I'm scared  
I need you to save me I'm so scared --&gt;
