

George Ezra, Come On Home For Christmas

Bells will be ringing the glad, glad news
So what a Christmas to have the blues
My baby's gone, I have no friends
To wish me greetings once again

I hear them singing Silent Night
Christmas carols by candlelight

Won't you please come home for Christmas /2x

Come on home for Christmas babe
Come on home for Christmas
/2x

Won't you tell me
You're never wrong
Christmas and New Year will find you home
They will be no sorrow,
No Grief or pain
Cause i will be happy once again

Won't you please come home for Christmas /2x

Come on home for Christmas babe
Come on home for Christmas
/2x

I remember how cute you look
Beneath the mistletoe
You wrapped up by the fire
In my winter clothes
And if there's one thing better
That fallin' asleep by your side
It's to wake up next to you at Christmas time

Well please, come home!
Won't you please come home for Christmas /2x

Come on home for Christmas babe
Come on home for Christmas
/2x
