

# Girl in red, Summer depression

De-de-de-depression  
Teenage, suicidal  
Why, girls?  
Emotional  
Social denied

Pretty face with pretty bad dreams  
No one knows I cry in my sleep  
Waking up, feeling like shit  
It's a normal thing to feel like this  
I don't care, I'm feeling down  
I wanna stay home, never go outside  
Summer depression comes every year  
I just want to disappear  
Summer depression  
There's so much time to question my life  
Summer depression  
It's my summer depression  
My worst habit  
Is my own sadness  
So I stay up all night  
Wondering why I'm so tired all the time  
All my friends are doing things  
It's good for them, but I'm nothing  
Summer depression comes every year  
I just want to disappear  
There's so much time to question my life  
Summer depression  
It's my summer depression  
Teenage, suicidal  
Why, girls?  
Emotional  
Social denied  
Summer depression  
There's so much time to question my life  
Summer depression  
It's my summer depression
