

# Glass Animals, Black Mambo

What'll it be now mister mole  
Whisper sloth in curls of smoke  
Take a back seat  
Or play pharaoh  
Dance with me  
And shake your bones

Slow down  
It's a science  
He's been waiting  
To bring you down

Snake eyed  
With a sly smile  
He can hold you  
And shake you child

Leopards laze each  
On plush pillows  
Slender capes  
Of red and chrome

Paperback dreams  
In their deep doze  
Twitch their toes to  
Black mambo

Slow down  
It's a science  
He's been waiting  
To bring you down

Snake eyed  
With a sly smile  
He can hold you  
And shake you child

Wanna play cheat  
Now says the sloth  
A domino  
Flush to his nose

Tickle that cheek  
And take your throne  
Pump your veins  
With gushing gold

Slow down  
It's a science  
He's been waiting  
To bring you down  
Snake eyed  
With a sly smile  
He can hold you  
And shake you child

We can hold you /4x
