

# Glass Animals, Creatures in Heaven

3 in the morning  
Making love/Waking up  
Laid on the floor  
Of your apartment  
Birds eye view  
Of the two of us  
Face in make up  
And cheap fake blood

What do you think about when you think about love?  
I'm dumbstruck when you're tender  
But it's 3 in the morning,  
Be in the moment,  
Here in the moment,  
Free in the moment.

3 in the morning  
Over like that  
Go slow motion  
Cut it to black  
Its merely a moment  
Here for a moment  
Here is the moment  
Here for a moment.

It tears through my head  
Does it haunt you too?  
Diamonds in the dark  
In your old bedroom  
You held me like my mother made me just for you  
You held me so close that I broke in two

It tears through my head  
Does it haunt you too?  
Never really said  
That I loved you too  
Lucky lucky You  
Because I'm fortunes fool  
Such small words but they hit so huge...

I don't think I realise  
Just how much I miss you some times  
We were young and so in love  
We were just creatures in heaven

I don't think I realise  
Just how much I miss you some times  
For a moment we were just...  
We were just creatures in heaven.

3 in the morning safe inside  
Bury me here in your laundry pile  
At 3 in the morning  
Be in the moment  
Here in the moment  
Free in the moment.

Three in the morning over like that  
Go slow motion cut it to black  
Its merely a moment  
Here for a moment  
Here is the moment  
Here for a moment...

I dont see the point in a subtle romance  
Ten tonne heart ache sitting on your back  
Scared of the crack where the light comes through  
I'm only really me when I'm here with you

And it gets in your head like a cosmic zoom  
Coat on the door like an old space suit  
So long cowboy you're so cool  
Cash in hand with a memory of you

Creatures in heaven  
Back then we were just  
Creatures in heaven  
We were just creatures in heaven
