

Glass Animals, I Don't Wanna Talk (I Just Wanna

Don't wanna talk baby, I just wanna dance
I don't wanna talk, no more living in the past baby
Don't wanna talk baby, I just wanna dance
And I'm not gonna stop till I forget what we had

We kissed in the morning on aa summer day
You taste like cigarettes and hurricanes
There's a warning written in the corners of your face
Whiplash and you left me in a vapour trail

Now i know
It's safe to say
Nothing's perfect anyway

You say
You'd fall in love but you don't know how
We were good once, but i am fucked up now
You say
I was done tryna worrk things out
I built the house as you burned it down

Don't wanna talk baby, I just wanna dance
I don't wanna talk, no more living in the past baby
Don't wanna talk baby, I just wanna dance
And I'm not gonna stop till I forget what we had
