

Glen Campbell, Give Me Back That Old Familiar

I keep waiting for a song to come and sing you back to me
I never felt so free as when I had you
Our rhythm was the best that's touched the likes of me
I was really me when I had you
Give me back that old familiar feeling let me feeling like I was someone
Give me back that song we sang in harmony just you and me singing together

My radio still plays the songs you like to hear I wish you were here oh I need you
I'll take the time and tune the station in real clear as if you were here oh I love you
Give me back that old familiar feeling...
Give me back that old familiar feeling...
Give me back that old familiar feeling...
