Glen Campbell, Hey Little One

Hey little one so far from home and so alone
Hey little one I'm just like you I'm lonely too
The road of life is a long long road when you walk alone
Then I found you I found a love a love I've never known a love I've never known
Hey hey hey little one don't go away tell me you'll stay
Hey hey hey little one I'm just like you I'm so lonely too
