

# Goldfrapp, Moon In Your Mouth

I'm alive  
I feel your heart beat  
Moon In Your Mouth  
We are perfection  
Light on our side  
I wanna stayher now  
Every moment is \_\_\_\_

Just pull me out  
Until I come  
You...

I'm alive  
I feel the blood stream starts in your live  
Every

So hold me tight  
I don't let go  
We started something

We're live  
...

We're looking at the moon  
Is the same face we're see?
