

# Gorillaz, Ascension (feat. Vince Staples)

You are now turned into the tomb of Jehovah  
Play my tunes loud enough to shake the room  
What's the hold up?  
Heard the world is ending soon  
I assumed that they told you  
They tryna dinosaur us  
So now it's time to go up!

The sky's falling, baby  
Drop that ass before it crash  
(Higher!)  
/4x

The roof is on fire  
She wet like Barbra Streisand  
Police everywhere  
It's like a nigga killed a white man  
I just wanna find a baby mama before the night ends  
So don't be coming around Vince  
On that better ram shit  
On that 911 shit  
Need a misses brown as Missy  
I can have some fun with  
Them slave bones Grace Jones  
Don't stop, bitch, stay focused  
Let my people go crazy  
Them stars falling  
Don't chase them

The sky's falling, baby  
Drop that ass before it crash  
(Higher!)
