

# Gossip, Real Power

Give me real power  
Give me real  
Give me real power  
Give me real

Somewhere in the night, a fire is burning  
Energy is high, it's getting real  
Head is in the clouds, I'm moving mountains  
Do you feel what I feel? (Do you feel what I feel?)  
Swaying face to face, my hands are clapping  
Shadows in the corner standing still  
In a moment anything could happen  
Do you feel what I feel? (Do you feel what I feel?)

I want real power  
Give me something real  
Real power  
Do you feel what I feel?  
I want real power  
Give me something real  
Real power  
Do you feel what I feel?

Ooh  
Ooh  
Ooh  
Ooh

Music in my head, my ears are ringing  
Always been like this and always will  
Rhythm in my blood, my heart is pounding  
Do you feel what I feel? (Do you feel what I feel?)  
People in the streets are getting rowdy  
Come here to make peace, but just to kill  
Feeling overcrowded, but I like it  
Do you feel what I feel? (Do you feel what I feel?)

I want real power  
Give me something real  
Real power  
Do you feel what I feel?  
I want real power  
I need something real  
Real power  
Do you feel what I feel?

Ooh (Give me real power, give me real)  
(Give me real power, give me real)  
Real (Give me real power, give me real) power, real (Give me real power, give me real)  
Real (Give me real power, give me real) power, real (Give me real power, give me real)  
Real (Give me real power, give me real) power, real (Give me real power)

I need real power  
Give me something real  
Real power  
Do you feel what I feel?  
I want real power  
Give me something real  
Real power  
Do you feel what I feel?  
(Ooh)

Give me real power, give me real  
Give me real power, give me real

Give me real power, give me real  
Give me real power, give me real
