

# Grace Jones, Crack Attack

You stand there, stutter, brains like butter,  
You dissed your father, sister, your mother,  
Times have tried too hard to your answer to give up instead of live up,  
To the stance of a man, understand that I'm a right hand,  
Five out of five will die, from crack and on my left the birth the same and the same birth (?),  
The kid once did and now his death is echoed around the world for all to hear,  
So let's have a merry new year  
Yo Grace, school 'em.  
They're lost now, taken over, crack attack,  
They're lost now, taken over, crack attack,  
There's a little boy who lives down the way,  
I heard he's crazy from crack in his brain,  
He's lost now, he's taken over, crack attack,  
Lost now, taken over, crack attack,  
Don't do it, cheap high, say no! (echoes).  
Though I wonder who is to blame,  
All this epidemic is driving me insane, all of it,  
I see the kids dying in the streets,  
Whoever makes one, they're going lose his way,  
Lost know, taken over, crack attack,  
They're lost now, taken over, crack attack.  
Stuck in the middle, and don't know where to go,  
They've got so now, they're living for the blow,  
They get it babe, doing it for the thrill,  
It's so insane, such danger for a thrill,  
Lost now, they're taken over, crack attack,  
Don't do it, cheap high, break the tie.  
You can turn it over, you can take control,  
you want your mind, your body and soul,  
Don't you let crack put you in a hole,  
You've done without and you can do it now.  
Said crack attack, crack attack, crack attack,  
Don't do it, say no!, give it up,  
Lost now, lost now...lost now, taken over crack attack, crack attack,  
Taken over, crack attack, crack attack,  
Lost now...give it up, give it up, taken over.
