

# Grace VanderWaal, Stray

[Verse 1]

I wanna write a song  
One that can explain my loss  
I wanna write a song  
That you can hear and  
Know how my heart yearns  
And how my insides churn  
And how my cheeks burn  
From the weekly storm  
And how my face turns  
Before you return to the wall  
And then down the floor

[Chorus]

I keep only seeing rain  
I will say no  
But you keep crawling in my brain  
I wanna get lost, run away  
In the dark is where I will stray

[Verse 2]

I gotta write a song  
But I wanna feel my words  
And I keep getting it all wrong  
Think it out, write it out, rip it out  
Throw it all to the wall

[Chorus]

And I keep only seeing rain  
I will say no  
But you keep crawling in my brain  
I wanna get lost, run away  
In the dark is where I

[Bridge]

I wanna feel the way I used to  
I wanna move the way I used to groove  
I wanna feel the way I used to  
I wanna move the way I used to groove

[Chorus]

But I keep only seeing rain  
I will say no  
But you keep crawling in my brain  
I wanna get lost, run away  
In the dark is where I  
I keep only seeing rain  
I will say no  
But you keep crawling in my brain  
I wanna get lost, run away  
In the dark is where I will stray

[Outro]

Wanna feel the way I used to  
I wanna move the way I used to groove  
I wanna feel the way I used to  
I wanna feel the way I used to
