

Green Day, Here Comes The Shock

Here comes the shock
Here comes the shock
Here comes the shock
Here comes the shock

We got the numbers
Gonna rumble in the street
We're screaming bloody murder
We're gonna take it to the grave

Bebop a lula baby
Annie get your gun
We're gonna shoot it baby
Gonna do some damage
And some damage will be done

Here comes the shock

We got the creatures
And we got no place to go
We're screaming truth to power
From the barrio

We are the broken records
Sitting in the sun
Turn up the amplifier
Gonna do some damage
And some damage will be done

Here comes the shock
