

# Guided By Voices, Fountain Of Youth

In the mirror's care now -- comb your silken hair now  
You wanna stay young, you wanna stay young  
Buy you pretty lace, yeah -- and makeup for your face, yeah  
You wanna stay young, you wanna stay young

I hope you know that all of these girls are a lot like you  
Cry indigo tears and fall on your knees to the fountain of youth

In her social grace now -- gaining so much praise now  
You wanna stay young (you wanna stay young)  
Pills and beauty creams, yeah -- protect a little girl's dreams, yeah  
You wanna stay young (you wanna stay young)

I hope you know that all of these girls are a lot like you  
Cry indigo tears and fall on your knees to the fountain of youth

(I hope you know that all of these girls are a lot like you  
Cry indigo tears and fall on your knees to the fountain of youth)
