

Guided By Voices, Key Losers

Oh darkness makes them cringe - perhaps caught
Respectable - impeccable - not taught
The key losers
Not to trust in instinct - blame them
No wait! don't tame them
They will let you down every time, the key losers
In the clutch - twice as much
In the long run - final gun
Down the stretch we couldn't catch
The part-time players - the scrubs
Consistently choking, the roach coach is smoking
