

Guided By Voices, Let's Go To China

Let's go away to China
We can be free again
Let's go out - let's run away - to China
And trees will be high
And kites fly
And you hold your head
Way above me behind the trees
Hey, lost beneath the world

Paid a lot of low-life
Said I don't mind
Hey, Girl
Find the fast of the world
Let's go to China
Let's go to where the east is good to me...
