

# Guided By Voices, New You (You Can See And Believe)

Let me cut up your picture yeah,  
and let me move around the parts  
make a new you  
I'll put your eyes back in place,  
baby so you can see me  
take your head out of your ass  
so you can see  
put your heart on your sleeve  
so you can believe alright!  
It's a new you!

You can see and believe  
how much each of us must know  
You can see and believe  
how much each of us  
must know you're gonna see!  
You'll believe  
how much each of us must know!
