Guided By Voices, Office Of Hearts

Roll out the painkillers
We'll have a perfect wig-out
Sleepy boys don't look
It's not in the gazette
Or a statistical occurrence
It's octopus caveman
Drinking with the enemy
He's got a girl on every arm

He sits down and circulates In the office of hearts He's case-closed middleman In the office of hearts He'll steal you away

He sits down and circulates Come feel the softest parts In the office of hearts Sit down and circulate Come feel the softest parts In the office of hearts

Sit down and circulate Come feel the softest parts In the office of hearts
