

Guided By Voices, One More

Four elements, pay tribute
to one more
all people
good hearts
One more
have you discovered
another cold planet
one more
have you discovered
another cold planet
one more
Moses from the mountain
give us another rule
one more
noses to the window
eyes that can see

one more
have you invented one more?
Another bad memory
one more
a stunt learnt
a microsecond burnt
one more
another stage dive
another headache
one more
have you reported
by nine to all the glory
of one more!
Out there in the wild universe
the open book
the baited hook.
