

# Guided By Voices, Pantherz

Bought her drugs and something nice  
She began to mention rice  
Later she said she'd concede  
So I went and got my keys back  
And then one day when I write  
You will lie and say I've died  
We're just babies when we meet  
We're just babies  
Strong words and big black birds  
On the telephone wire  
She said hey look over there  
There's a car on fire

Debbie X I love you so  
But there's one thing you should know  
If he comes round here again  
I will have to take my teeth out  
Strong words and big black birds  
On the telephone wire  
She said hey look over there  
There's a car on fire
