

Guided By Voices, Skin Parade

For Chrissakes, Charlie
Send them your love
Pictures from happier times
When babies acted like babies
So did the grown-ups
The band played We All Fall Down
And some of us did

Fly off the wheel
Travel highwired
There are movements necessary
Then there is unnecessary motion
It happens all the time
You can see it swim
In the skin parade
In the skin parade

Where other objects move to
Right through you
To the other side
It is come alive
It is come alive
In the skin parade
In the parade of skin

Celebrating this level
Of concrete movements
Wicked
