

# Guided By Voices, Skin Parade

For Chrissakes, Charlie  
Send them your love  
Pictures from happier times  
When babies acted like babies  
So did the grown-ups  
The band played We All Fall Down  
And some of us did

Fly off the wheel  
Travel highwired  
There are movements necessary  
Then there is unnecessary motion  
It happens all the time  
You can see it swim  
In the skin parade  
In the skin parade

Where other objects move to  
Right through you  
To the other side  
It is come alive  
It is come alive  
In the skin parade  
In the parade of skin

Celebrating this level  
Of concrete movements  
Wicked
