Guided By Voices, Stifled Man Casino

Stifled man casino In a bed of bland facts Wake up for recovery Stifled man casino Unpleasant, co-missions, please

Turn it off, avalanche man and down comes the roofer Up go the stakes In stifled man casino No one gets the brakes That's the breaks, baby

Stifled man casino Scratching surfaces Street lights blurring Speech patterns blurred Passed out on apartment complex lawns

Turn it off, avalanche man

and down comes the roofer Up go the stakes In stifled man casino No one gets the brakes That's the breaks, baby

Stifled man casino
You can feel all the dust in your window
You can feel all the lust in your mind
But you can't have what you want
You can play around and lay around
Your whole life

Turn it off, avalanche man and down comes the roofer Up go the stakes In stifled man casino No one gets the brakes That's the breaks, baby
