

Guided By Voices, Why Did You Land?

Standing around
Hoping everything works out
Cause I want them all to work out
You were always so in love with the truth
Why did you change?
Why did you land?

Chorus: Look at the photograph
Nothing is real
Spend another lonely life
With nothing to feel

Was it something
In the stories everyone told you
You needn't heed them
Maybe you should read them
Go back to where you came from
Why did you land?
You couldn't stay in flight forever

Chorus

Why did you land?
repeat five times
