

# Hailee Steinfeld, Afterlife

red eyes, like the smoke we rise  
as the candle's burning low  
trust me in whatever you like  
are you plying whit me?

every time your name, it leaves my lips  
running still like words left unsaid  
fire in my veins dream deeply love  
remind me I am alive

will you love me when my heartbeat stops  
when my heartbeat stops  
will you stay mine?  
will you promise me you'll search for us  
will you find me afterlife?  
For better or for worse  
will death be our last kiss, my love  
will you promise me you'll search for us  
will you find me afterlife?

my ear is buzzing  
I ma trapped  
no one's coming  
immortality is bliss  
you put me down  
then put me on a pedestal  
now that I am gone  
you're gonna miss me

every time your name, it leaves my lips  
running still like words left unsaid  
fire in my veins dream deeply love  
remind me I am alive

will you love me when my heartbeat stops  
when my heartbeat stops  
will you stay mine?  
will you promise me you'll search for us  
will you find me afterlife?  
For better or for worse  
will death be our last kiss, my love  
will you promise me you'll search for us  
will you find me afterlife?

candles burning  
will you find?  
will you find me afterlife?  
will you love in the afterlife?  
will you love , will you love ?  
will you love in the afterlife?  
will you love , will you love ?

will you love me when my heartbeat stops  
when my heartbeat stops  
will you stay mine?  
will you promise me you'll search for us  
will you find me afterlife?  
For better or for worse  
will death be our last kiss, my love  
will you promise me you'll search for us  
will you find me afterlife?
