

# Halsey, Darling

[Verse 1]

Really can't remember where I left my spine  
Carryin' my body in a bag for dimes  
Hidden in the pages of the New York Times at home  
And maybe I'll be better if I take my meds  
Ain't a doubleheader if you lose your head  
Try the medication that I bought instead  
It's workin' for a little, but there's not much left

[Chorus]

Darling, don't you weep  
There's a place for me  
Somewhere we can sleep  
See you in your dreams

[Verse 2]

Ever since a little girl, I found it sweet  
Drivin' past a graveyard on a lonesome street  
All the little flowers gave me somethin' to believe in  
Never knew the feelin' of a stable home  
Been a couple years of livin' on the road  
Couldn't really tell you where they'd leave a stone  
To visit me when I am dead and gone

[Chorus]

Darlin', don't you weep  
There's a place for me  
Somewhere we can sleep  
I'll see you in your dreams  
Darlin', don't you cry  
Head fast toward the light  
Foolish men have tried  
But only you have shown me how to love bein' alive

[Bridge]

Until it's time to see the light  
I'll make my own with you each night  
I'll kidnap all the stars and I will keep them in your eyes  
I'll wrap them up in velvet twine  
And hang 'em from a fishin' line  
So I can see them anytime I like

[Chorus]

Darlin', don't you weep  
There's a place for me  
Somewhere we can sleep  
I'll see you in your dreams  
Darlin', don't you cry  
Head fast toward the light  
Foolish men have tried  
But only you have shown me how to love bein' alive
